### ALLIED HEALTH COURSES

---

**AHL 001A Health Occupations Bootcamp (2.0  
Lecture) 2.0 UNITS**

This course is designed to prepare the potential Health Occupations student for entry into and success in a Health Occupations program. The course content focuses on competencies expected upon entry, study skills, test-taking strategies, stress management, mathematics for dosage calculation, critical thinking, critical reasoning, and introduction to the nursing process. Advisory: Students should have basic arithmetic skills.
