

COURSES

LEARNING SERVICES COURSES

LSR 900 Strategies for Basic Skills Math (3.0 Lab) 3.0 UNITS

This course is an introduction to basic skills math to assist in the completion of certificated programs.

LSR 902 Assistive Technology Assessment 0.5 UNITS

This course provides a means for evaluating the appropriate adaptations for computer access of students with disabilities. Pass/No Pass Only.

LSR 904 Orientation to Learning Services 0.0 UNITS

This course provides students with disabilities with an overview of Mission College and detailed information about the Disability Instructional Support Center (DISC), the services, and courses available through the Center. No Grade/No Credit.

LSR 940 Learning Strategies for Basic Writing Skills (3.0 Lecture) 3.0 UNITS

This course stresses the practical application of compensatory strategies for students with written language difficulties.

LSR 941 Learning Strategies for College Success (3.0 Lecture) 3.0 UNITS

This is an introductory course stressing learning strategies for students with disabilities. Pass/No Pass Option.

LSR 942A Learning Services Math Strategies (3.0 Lecture) 3.0 UNITS

This is the first course in a three- part sequence. It is an introduction to mathematical strategies for students with disabilities who have had difficulty mastering the basic concepts of fractions, variables, and simple equations. Students are introduced to techniques that focus on developing compensatory strategies for visual processing, short-term memory, long-term memory, and auditory processing disabilities. Manipulative modules, supportive devices, computer software, web sites, as well as drill and practice exercises are stressed in order to assist in the understanding and mastery of these basic concepts.

LSR 942B Learning Services Math Strategies (3.0 Lecture) 3.0 UNITS

This course is the second of a two-course sequence covering mathematics strategies for students with who have had difficulty mastering the basic concepts of decimals, ratios/proportions, and percents. Pass/No Pass Option.

LSR 942C Learning Services Math Strategies (3.0 Lecture) 3.0 UNITS

This is the third class of a three-course learning sequence covering mathematical strategies for students with disabilities or students who have difficulty mastering pre-algebraic, algebraic and statistical concepts. Students are introduced to techniques that focus on developing compensatory strategies for visual processing, short-term memory, long-term memory, and auditory processing disabilities. Manipulative modules, supportive devices, computer software, websites, as well as drill and practice exercises are stressed in order to assist in the understanding and mastery of these basic concepts.

LSR 943 Negotiating the College Web and Assistive Technology Environment (3.0 Lecture) 3.0 UNITS

An introductory course designed for students with perceptual, physical, communication, or learning challenges who wish to obtain 1.) basic information regarding negotiating the college course management system, 2.) keyboarding skills and 3.) the use of assistive technology specific to their challenges. Pass/No Pass Option.

LSR 950 Assistive Technology Lab (1.0 Lab) 1.0 UNIT

This course is designed to offer students with disabilities an opportunity to practice compensating strategy techniques in a laboratory setting.
